# nifti

- » Accessible
- » Available
- » Affordable
- » Acceptable.

## What is Community Transport?

**Community Transport is a response by the government to the shortfall of available public transport in rural areas.**

### This includes:

- » People who live off the main transport routes
- » Young people who have no access to public transport
- » People with disabilities who need wheelchair/accessible transport
- » Community groups with limited funding who have transport needs
- » People in rural areas with limited access to health care services

### Who can use Community Transport?

#### Everybody can use community transport.

- » Older people
- » Young people
- » Parents with children
- » People with disabilities
- » Community groups

### What services are available to the community?

- » Weekly services to access pension, shopping, hospital, health facilities
- » Services to access active retirement groups
- » Services for groups to attend activities
- » Daily services to access education, employment and training
- » Services for Disability groups
- » Individual services to access health appointments
